THE SAILOR'S GUIDE TO Knot Tying

KNOTS THAT CONNECT THE LINE TO A SUPPORT

HALF HITCH

This quick and easy knot is the basis for many other practical knots. While it isn't particularly strong on its own, it can be used to secure the ends of a line when tying other knots.

1 Wrap the line around the post of support.

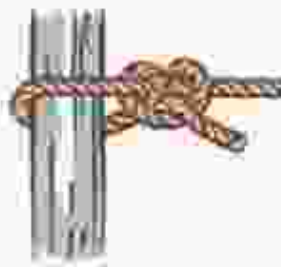

2 Pull the working end around the standing line and through the loop.

3 Pull the working end to tighten and secure the knot.

DOUBLE HALF HITCH

This is a more secure version of the half hitch and is used to tie things to the top of a mast or to keep things secure in their slips during heavy seas.

1 Tied two eyes for the half hitch knot.

2 Pull the working end through the standing line and over the loop.

3 Pull the working end to tighten and secure the knot.

GLOVE HITCH

1 Wrap the line around the support post or object.

GLEAT HITCH

1 Wrap the line around the fore-horn of the mast.
