The International Handbook of Threat Assessment provides a comprehensive overview of the field of threat assessment, including the latest research, best practices, and case studies.

This handbook is a valuable resource for professionals who work in the field of threat assessment, including law enforcement officers, school administrators, mental health professionals, and corporate security personnel.

### **What is threat assessment?**

Threat assessment is the process of identifying, assessing, and managing threats. A threat can be defined as any communication or behavior that indicates an intent to harm or kill another person.

Threat assessment is a complex and challenging process. It requires a multidisciplinary approach that involves law enforcement, mental health professionals, and other stakeholders.
