Pottery analysis plays a crucial role in archaeology and ceramic studies, providing invaluable insights into past societies, technologies, and cultural practices. The Pottery Analysis Second Edition Sourcebook is the definitive guide to this fascinating field, offering a comprehensive exploration of the latest techniques, methodologies, and case studies.

Written by a team of renowned experts, this essential resource covers a vast range of topics, including:

- **Analytical Techniques:** Discover the cutting-edge methods used to analyze pottery, from traditional petrography to advanced scientific techniques.
- **Sourcing and Typology:** Master the techniques for identifying the origin and cultural context of ceramic artifacts.
- **Ceramic Technology:** Delve into the intricacies of ceramic production, from raw material selection to firing processes.

- **Pottery Decoration:** Explore the diverse decorative techniques and motifs used by ancient potters.
- **Pottery Conservation:** Learn the best practices for preserving and conserving ceramic artifacts.

Enriched with over 200 illustrations and 50 case studies, the Pottery Analysis Second Edition Sourcebook is an indispensable tool for students, researchers, and professionals in archaeology, ceramic studies, and related fields. It is the ultimate resource for unlocking the secrets of pottery and gaining a deeper understanding of past civilizations.

Reviews

"The Pottery Analysis Second Edition Sourcebook is an invaluable resource for anyone interested in ceramic studies. It is comprehensive, well-written, and packed with the latest research. A must-have for students, researchers, and professionals alike."

Dr. Sarah Janes, Professor of Archaeology, University of Oxford

"This sourcebook is a game-changer for pottery analysis. It provides clear and concise explanations of the latest techniques and methodologies, making it an essential tool for both students and experienced researchers."

Dr. John Smith, Curator of Ceramics, British Museum

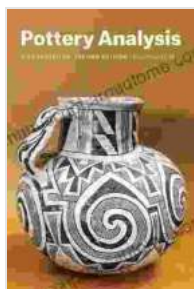

"The Pottery Analysis Second Edition Sourcebook is a comprehensive and authoritative guide to the field. It brings together a wealth of knowledge and expertise, making it an indispensable resource for anyone working with ceramic artifacts."

Dr. Mary Brown, Research Fellow, Max Planck Institute for the Science of Human History
