

# Save Life Certifications: Your Essential Guide to Bloodborne Pathogens (BBP) Certification

Bloodborne pathogens are microorganisms that can cause serious diseases, including hepatitis B, hepatitis C, and HIV. Healthcare workers, first responders, and anyone who may come into contact with blood or bodily fluids are at risk of exposure to these pathogens.

Bloodborne Pathogens (BBP) Certification is essential for protecting yourself and others from these potentially life-threatening infections. Save Life Certifications provides comprehensive BBP training programs that meet the requirements of OSHA and other regulatory agencies.

## What is Bloodborne Pathogens (BBP) Certification?

BBP certification is a training program that provides individuals with the knowledge and skills necessary to prevent exposure to bloodborne pathogens. The program covers topics such as:

- The epidemiology and transmission of bloodborne pathogens
- Universal precautions and standard operating procedures for handling blood and bodily fluids
- Proper use of personal protective equipment (PPE)
- Emergency procedures for bloodborne pathogen exposure
- Recordkeeping and reporting requirements

### **Who Needs BBP Certification?**

BBP certification is required for any employee who may come into contact with blood or bodily fluids. This includes healthcare workers, first responders, dentists, laboratory technicians, and anyone else who works in a setting where there is a risk of exposure to bloodborne pathogens.

### **Benefits of BBP Certification**

BBP certification provides numerous benefits, including:

- Protection from bloodborne pathogens
- Compliance with OSHA and other regulatory requirements
- Enhanced job safety
- Peace of mind

### **Save Life Certifications: Your Trusted Provider of BBP Training**

Save Life Certifications is a leading provider of BBP training and certification. We offer a variety of training options to meet your needs, including:

- Online BBP training
- In-person BBP training
- Custom BBP training programs

Our training programs are developed by experts in the field of infection control and are designed to provide you with the most up-to-date information on bloodborne pathogens and their prevention.

## Get Certified Today

Protect yourself and others from bloodborne pathogens with BBP certification from Save Life Certifications. Contact us today to learn more about our training programs and to schedule your certification.
