**Puzzle:** White to play and win.

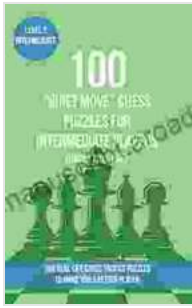

**Solution:**

1. Rxf6+ Kxf6 2. Qh5+ g6 3. Qh8#

**Analysis:** This puzzle showcases a classic "discovered check" tactic. White's rook on f6 pins the black king, preventing it from capturing the white queen. By moving the queen to h5, White discovers an additional check on the black king, forcing the king to move to g6. With the king no longer protected, White delivers a checkmate with the queen on h8.

"100 Real Life Chess Tactics Puzzles To Make You Better Player Chess Puzzles" is the ultimate resource for chess players seeking to refine their tactical skills. By immersing yourself in these engaging puzzles and learning from expert analysis, you will develop a profound understanding of chess tactics and emerge as a more confident and formidable player. Whether you're just starting your chess journey or aspiring to master the game, this book is an essential tool for your chess arsenal.
