In 1928, a group of con artists pulled off one of the most audacious confidence scams in history. They convinced a group of wealthy investors to put up \$15 million to fund a new gold mine in Mexico. The only problem was, there was no gold mine.

The Confidence Chronicles is the thrilling and true story of this incredible scam. It's a tale of greed, deception, and betrayal. It's also a story of how even the most sophisticated investors can be taken in by a well-executed con.

The book's author, David W. Maurer, was a criminologist who spent years investigating the case. He interviewed the con artists, the investors, and the law enforcement officers who brought them to justice. The result is a

meticulously researched and gripping account of one of the most notorious crimes of the 20th century.

The Confidence Chronicles is a must-read for anyone interested in crime, history, or just a good story. It's a fascinating and cautionary tale about the dangers of greed and the power of deception.
